

**Z-200-00 ZINOX Z-CLEANER  
CONCENTRATED SURFACE PREPARATION CLEANER****DESCRIPTION**

Z-Cleaner is a biodegradable concentrated cleaner / degreaser designed to clean and prepare surfaces before the application of Zinox products. It helps remove dirt, grease, organic residue, moss, lichen and other contaminants that may affect adhesion and coating performance.

**USE**

Recommended for exterior surfaces requiring cleaning or preparation before applying a coating. Suitable for asphalt shingles, metal roofs, RV surfaces, painted or galvanized metal, wood, concrete, membranes and exterior surfaces.

**SURFACE PREPARATION**

Surfaces to be treated must be accessible and free of heavy debris. Remove leaves, branches or heavy accumulations before application. Apply Z-Cleaner using a sprayer.

**DIRECTIONS FOR USE**

Dilute Z-Cleaner according to the condition of the surface. Apply with a sprayer to the surface to be cleaned. Let the product work for 5 to 10 minutes. Do not allow the product to fully dry on the surface. Rinse thoroughly with clean water. On asphalt shingles, use low to moderate pressure to avoid damaging or removing granules. Allow the surface to dry completely before applying a Zinox coating.

**DILUTION**

Dilute 1 gallon of Z-Cleaner with 3 to 4 gallons of water, depending on surface condition.

Heavily soiled or contaminated surface: 1 gallon of Z-Cleaner + 3 gallons of water.

Lightly soiled surface: 1 gallon of Z-Cleaner + 4 gallons of water.

**TOOL CLEANING**

Rinse tools, sprayers and equipment with clean water immediately after use.

**WASTE DISPOSAL**

Consult your municipality for applicable rules regarding the disposal of cleaning residues. Do not pour concentrated product into drains, waterways or storm sewers.

**TECHNICAL DATA**

**SKU:** Z-200-00

**Type:** Concentrated cleaner / degreaser

**Use:** Surface preparation

**Colour:** Clear / slightly coloured liquid

**Odour:** Mild

**Size:** 3.78 L / 1 US gallon

**Dilution:** 1 gal. with 3 to 4 gal. of water

**Theoretical coverage:** 1,250 to 1,500 sq. ft. after dilution

**Application:** Sprayer

**Working time:** 5 to 10 minutes

**Rinsing:** Clean water

**Flammability:** Non-flammable

**Biodegradability:** Biodegradable

**APPLICATION CONDITIONS**

Recommended temperature: 10 to 30 °C. Do not apply in the rain. Avoid application on extremely hot surfaces. Do not allow the product to fully dry on the surface before rinsing. Allow the surface to dry before applying a Zinox coating.

**RECOMMENDED EQUIPMENT**

Garden sprayer

Manual sprayer

Low-pressure sprayer

Clean water rinsing equipment

Protective gloves

Safety glasses

**STORAGE**

Keep container closed when not in use. Store in a cool, dry and well-ventilated area. Protect from freezing. Keep out of reach of children.

**PRECAUTIONS**

Avoid contact with eyes and skin. Do not ingest. Wear gloves, safety glasses and suitable protective clothing during use. Use in a well-ventilated area.

**FIRST AID**

Eyes: rinse with water for at least 15 minutes.

Skin: wash with soap and water.

If swallowed: do not induce vomiting. Contact a poison control centre or doctor.

Inhalation: move person to fresh air.

**WARRANTY**

Z-Cleaner is designed to prepare surfaces before applying Zinox products. A clean, dry and properly prepared surface is essential to ensure optimal performance of the applied coating.
